Summary of the Statement of Purpose

Mayfield Homecare was founded in 1989 to provide home carers to both Social Services and private service users. We aim to provide a high quality service to service users of all ages in their own home respecting their independence, privacy and dignity to ensure they enjoy the best quality of life at home. In the past 30 years our home carers distinctive uniforms have become a familiar sight throughout the area.

Mayfield operates 365 days a year 24 hours a day.

We employ over 45 trained home carers. To ensure the health and care of our service users is in the very best hands, a great deal of trouble is taken choosing reliable, caring staff. We check the qualifications of all our carers rigorously and all references are thoroughly taken up to ensure that our service users have piece of mind.

Prospective employees are required to provide at interview:

- Proof of ID.
- 2 Passport photos.
- The names of two referees, one of which would be their most recent employer.
- Certificates attained in relation to care work.
- Enhanced DBS and POVA check

Once satisfactory references are received and Mayfield is satisfied that the applicant has the relevant experience and is suitable, they will undergo Induction Training before assignments are allocated to them.

Financial Arrangements and Fees

We are committed to providing value for money within our comprehensive and caring service.

The fees charged are dependent on the type of care package and needs of the individual Service User.

Depending on the personal financial situation, a Service User can either pay the fees privately or receive benefits arranged by social services.

The current rules can be complicated and specific advice is available from the Registered Provider/Registered Manager.

The above is a general guide to what you should expect from your Home Carer, however, a flexible approach to all care tasks is encouraged.

What we cannot do for you

Asking the Home Carer to spend more time with you than on your care plan.

All home carers visit a number of people each day who will be expecting them at a certain time. If they are delayed, this will mean that someone else is kept waiting. If you need more time, please speak to the Registered Manager.

Changing curtains/light bulbs or cleaning windows

Because of risk of falls, workers cannot carry out any tasks that would involve them standing on anything where there may be a risk of industrial injury through accidents.

Lifting moving heavy furniture or other items

Again, because of the risk of accidents, our workers are not permitted to move or lift heavy items, like furniture, for any reason.

Provision of continence aids or specialist equipment

Mayfield does not provide continence aids or wheelchairs, bath aids, and other Occupational Therapy/Physiotherapy aids.

These things will be fully discussed with you when your needs assessment takes place. If there is a need for equipment or continence aids identified, referrals will be made to the appropriate agency or service.

Who to contact if you have an enquiry, concern or complaint

Queries about care may be raised with the care worker or the Registered Manager at any time, and it is hoped that these will be resolved without delay.

If any person wishes to complain, the complaint should be directed to the Senior Carer or Registered Manager. All reported complaints either verbal or written will be acknowledged within seven working days. Every effort will be made to resolve the complaint and to provide a full response to the complainant within 28 working days.

If after this investigation, the complainant is still not satisfied, or if they feel that the complaint is of a serious nature and wish to speak to a registration officer first, then you should contact the CSCI, or Warrington Borough Council, see below for the address and telephone numbers.
